Please find attached the latest information we have for the Chinese delegation for April 6 only. We are still missing names that will come in today (48 hours out) for April 6 and 7. I will update this evening with the final information for the two dates. We met with the Chinese last night on names and they had to go back to Beijing on final names.

Please find attached the latest information we have for the Chinese delegation for April 6 only. We are still missing names that will come in today (48 hours out) for April 6 and 7. I will update this evening with the final information for the two dates. We met with the Chinese last night on names and they had to go back to Beijing on final names.

詩經卷之三

- Final Instructions:

 1. The WITS Excel template must be saved as an "Excel Workbook" with an .xlsx filename extension (not .xls).
 2. The header row must remain in place and unchanged.
 3. The visitors worksheet name must remain unchanged (do NOT rename the worksheet!).
 4. Do not use any periods, apostrophes or other special characters.
 5. Do not use any spaces within the Last Name, first Name or Middle Name fields.

Tips:

Pasting data from other spreadsheets may cause errors. Be sure to check that your data has been pasted into the correct columns and that numbers are not misaligned (example: pasting an SSN starting with a zero may result in the zero being dropped which would result in an error). Use the format cells feature to fix any problematic data cells prior to loading the file into WRS. For example: set the SSN column to "Text" to ensure you enter any leading zeros in the SSN.

Pasting data from other spreadsheets may cause errors. Be sure to check that your data has been pasted into the correct columns and that numbers are not missing. For example, pasting an SSN starting with a zero may result in the zero being dropped, which would result in an error. Use the Format Cells feature to fix this problem (data cells prior to loading the file into WPS for example, set the SSN column to "TEXT" to ensure you read any leading zeros in the SSN).
